5/5/16

M. Peterson notes from internal
meeting with RA + CNSL + OPA

Sediment

Find whether there is an industrial action level
" " " " FUSRAP action level

Drainage is trib to Fee Fee Creek

Assessing drainage pathways is critical to design
and sampling approach -

We have data - no report expected
More sediment data expected next 2 wks - collected from
other areas, but could inform overall picture.

Next Steps.

1. Determine Ind. level
2. Determine FUSRAP level
3. Develop strategy to address -
4. Review incoming data - Get delivery date
5. Implement strategy
